

CITY AND COUNTY OF SAN FRANCISCO
BIODIESEL ACCESS TASK FORCE

DRAFT

October 10, 2008

Michelle Swiggers
Robin Gold
Owners
Dogpatch Biofuels
765 Pennsylvania Ave
San Francisco, CA 94103

Dear Robin and Michelle:

Congratulations on the opening of your new biodiesel station in San Francisco!

The San Francisco Biodiesel Access Task Force would like to extend our appreciation of your dedication and persistence in promoting the use of and public access to sustainable B100 biodiesel in San Francisco. Over the past two years this Task Force has brought City agencies together to facilitate greater access to and use of biodiesel in San Francisco. Your efforts to bring a new consumer oriented sustainable biodiesel filling station to our City is greatly appreciated. Your commitment to improving local air quality, the environment, and the overall health of the residents of San Francisco is commendable.

San Francisco, California, the United States, and the entire world need alternatives to petroleum based transportation fuels. Climate change and national security require it. Your leadership to provide clean-burning sustainable B100 biodiesel is an inspiration to all and sets an excellent example for others to follow.

We wish the two of you and your new venture great success.

Sincerely,

Eric M. Bowen
Chair
San Francisco Biodiesel Access Task Force
