Subject: Re: Comments on Draft List of Targeted Product Categories

Thank you for your comments. We will certainly take them into consideration and include them in the record.

It is important to note that the vast majority of city purchases for flooring take place within project contracts, which are not covered by the Precautionary Purchasing Ordinance. Also, please note that if and when we do begin work on flooring, one of our first steps would be a survey of existing standards. It is helpful to know that NSF is beginning a new standard-setting process for resilient flooring.

Sincerely,

=====
