

PETITION: LANDMARK TREE DESIGNATION NOMINATION

We, the undersigned, are in support of the Landmark Designation nomination for the large holly tree located at 733 27th Avenue. We believe this handsome tree with its striking dark green leaves creates a stunning visual impact and symbolizes an essential connection with nature, vital in an urban setting such as San Francisco.

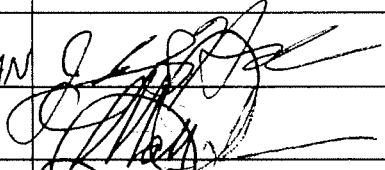

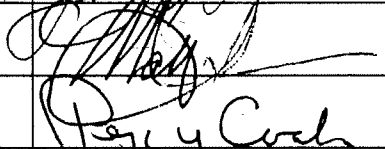

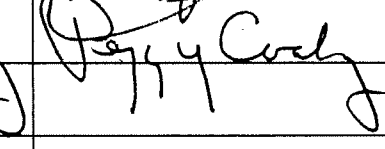

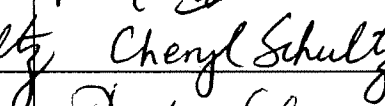

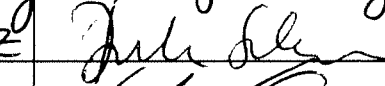

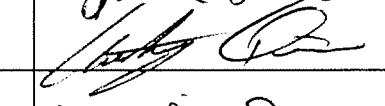

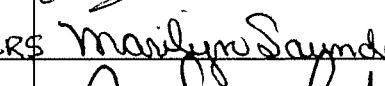

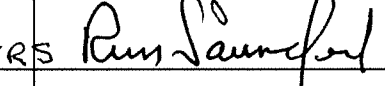

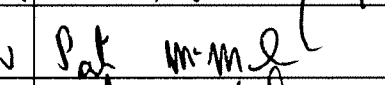

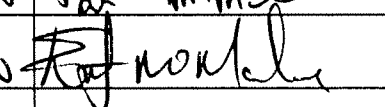

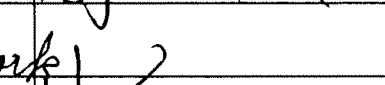

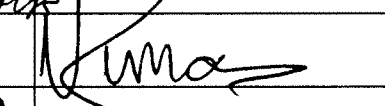

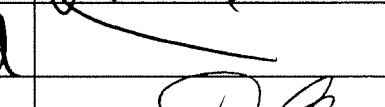

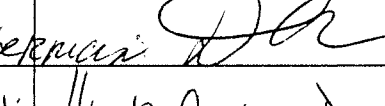

In addition, this healthy tree provides many environmental benefits such as an important wind and sound barrier and a privacy screen to many homes. More importantly, this tree holds special significance to our community as it provides a habitat for the many colorful and delightful birds in the vicinity, including, song birds, mourning doves, goldfinches, sparrows, mockingbirds, hummingbirds, red tail hawks, owls, blue jays and robins.
