

Urban Forestry Council Landmark Tree Evaluation Form and Criteria

Pursuant to Ordinance 0017-06 and Public Works Code Section 810, the UFC has developed these criteria for evaluating potential landmark trees in San Francisco. When evaluating or considering potential landmark trees, please consider the context of the tree within its site location. For example, a tree on PUC land may not have the same community importance that a street or park tree would. Use comment sections, as appropriate, to explain or support evaluation. Attach sheets if more space is needed.

Evaluator's name: _____ Jocelyn Cohen _____

Date of evaluation: _____ August 26, 2010 _____

Scientific name: _____ Cupressus macrocarpa _____

Common name: _____ Monterey cypress _____

Street address: _____ 4441 20th St, San Francisco, CA _____

Cross streets: _____ Eureka _____

Rarity ___ Yes ___ Partially X No

Rarity: ___ Rare ___ Uncommon X Common ___ Other

Unusual species in San Francisco or other geographic regions.

Comment: _____ Unusual to see a redwood of this size in a small San Francisco back garden

Physical Attributes ___ Yes ___ Partially ___ No

Size: X Large ___ Medium ___ Small

Notable size compared to other trees of the same species in San Francisco.

Comment: good trunk flare _____

Age: ___ Yes X No

Significantly advanced age for the species.

Comment: In an urban setting,

yes _____

Distinguished form: Yes X No

Tree is an example of good form for its species, has a majestic quality or otherwise unique structure.

Describe: ___ Single, three co-dominant stems at about 15'-18' height. _____

Tree condition: Good Poor Hazard

Consider overall tree health and structure, and whether or not tree poses a hazard

Describe: lots of inner growth, tree appears vigorous, this inner growth is very important on mature trees, as it gives arborists an opportunity to reduce end weight and prune to keep vigor in the inner canopy not just at the tips.

Historical Yes Partially No

Historical Association: Yes None apparent

Related to a historic or cultural building, site, street, person, event, etc.

Describe nature of appreciation: Not to my knowledge, but I do not know when the tree was planted and the circumstances. _____

Profiled in a publication or other media: Yes Unknown

Tree has received coverage in print, internet, video media, etc. **Attach documentation** if appropriate.

Describe coverage:

Postcard _____

Environmental Yes Partially No

Prominent landscape feature: Yes No

A striking and outstanding natural feature.

Describe, attach photo if possible: _____ The tree majestically graces the back garden corridor of the block _____

Low tree density: Low Moderate High

Tree exists in a neighborhood with very few trees.

Describe: _____

Interdependent group of trees: Yes No

This tree in an integral member of a group of trees and removing it may have an adverse impact on adjacent trees.

Describe: _____

Visible or Accessible from public right-of-way: Yes No

High visibility and/or accessibility from public property.

Describe: Visible from street and community of surrounding homes.

High traffic area: Yes No

Tree is located in an area that has a high volume of vehicle, pedestrian or bike traffic and has a potential traffic calming effect.

Describe: It is calming to the cluster of homes surrounding the tree.

Important wildlife habitat: Yes No

Species has a known relationship with a particular local wildlife species or it provides food, shelter, or nesting to specific known wildlife individuals. Hawks, raccoons and squirrels sighted regularly by home owner

Erosion control: Yes No

Tree prevents soil erosion.

Describe: _

Wind or sound barrier: Yes No

Tree reduces wind speed or mitigates undesirable noise.

Describe: The tree has a quieting effect

Cultural Yes Partially No

Neighborhood appreciation: Yes None apparent

Multiple indicators such as letters of support, petition, outdoor gatherings, celebrations adjacent or related to tree, etc. Attach documentation:

Describe: _____

Cultural appreciation: Yes None apparent

Particular value to certain cultural or ethnic groups in the city.

Describe nature of appreciation: California native plant aficionados perhaps though thought not to be native to San Francisco _____

Planting contributes to neighborhood character: Yes No

Tree contributes significantly to, or represents, neighborhood aesthetic.

Describe contribution: Glen park is known for its rustic, somewhat rural, foresty feel. The home and tree are within minutes of Glen Canyon Park. This tree resides behind a small Glen Park cottage tucked away as one may suspect in GP. The tree creates a very woodsy, wild feel.

Profiled in a publication or other media: Yes Unknown

Tree has received coverage in print, internet, video media, etc. **Attach documentation** if appropriate.

Describe coverage: _____

Prominent landscape feature: Yes No

A striking and outstanding natural feature.

Describe, attach photo if possible: _____

Additional comments

The Monterey cypress is another one of those back garden, urban forest surprises, and a residential park tucked away on a neighborhood street. The tree creates a monumental feeling as it towers above the homes in a tiny back garden parcel.
