Subject Support of tree's Landmark status at 20th/Eureka

Dear Mei Ling,

I was recently informed of efforts to obtain Landmark Status for the Monterey Cypress tree located on the southeast corner of 20th and Eureka streets. As a Eureka Street resident, I fully support the recognizing and designating it as such through San Francisco's Landmark Tree Program.

We are a leader amongst first-class cities around the world when it comes to understanding the significance of a healthy environment, let alone demonstrating a high level of respect for our planet and the gifts "Mother Nature" has given us. Our neighborhoods need to keep what trees we have and the historical meaning this older tree has is too valuable to dismiss it as anything less than a deserved monument and tribute to those who preceded us and built this city. Just as we take care of our elderly citizens, I recommend we do the same to older bio-diversity.

Thank you for your attention.

Sincerely,
Brian Campbell
Eureka Street
94114

Subject eureka street Monterey Cyprus

Hello, I am writing to express my support of George King's petition to award landmark tree status to the Monterey Cyprus located on the Southwest corner of eureka and 20th street. I have been a resident of this neighborhood for the past 6 years and greatly appreciate the value of such distinguished and beneficial old tree growth in our area.

Many thanks for your consideration,
~David

TO: Mei Ling Hui

We are writing to express our support of ~~the~~ George King's petition for Landmark status for his ~~tree~~^{tree} which he has been caretaker of since 1996.

Being members of the community where the tree resides we understand the importance of protecting it as it has protected us. Trees are an important part of any environment and especially an urban one, they help to clean the air, provide shelter and tell us about our history; who planted it? when? etc.

We urge you to grant this beautiful old tree the Landmark status it deserves.

caselli Ave.

San Francisco, CA
94114

Thank you,

Nicole Montalbano
