

# Recommended Street Tree Species List

## San Francisco Urban Forestry Council

The Urban Forestry Council annually reviews and updates this list of trees, in collaboration with public and non-profit urban forestry stakeholders, including San Francisco's Department of Public Works Urban Forestry Division and Friends of the Urban Forest.

It's important to carefully match the conditions of your site with the tree you choose. Please note that while this list contains recommendations that are known to do well in many locations in San Francisco, no tree is perfect for every potential tree planting location in San Francisco.

This list should be used as a guideline for choosing which street tree to plant, but should not be used without the help of a tree professional.
